PROFESSIONAL EXPERIENCE

incode hub

Cairo, Cairo Governorate, Egypt

Flutter application developer

August 2022 - Present

- Lead developer for mobile applications, driving the use of design patterns and agile methodologies for efficient app development.
- Collaborated closely with cross-functional teams, resulting in successful API integrations and implementation of continuous integration (CI/CD) for rapid app delivery.
- Achieved a 25% increase in app performance and user satisfaction through code optimizations and innovative solutions.
- Spearheaded the development of a critical project that significantly improved user engagement, resulting in a 30% increase in downloads.
- Actively mentored junior developers, contributing to a more skilled and cohesive development team.

Vicevio

Remote

Flutter Application Developer

June 2020 - September 2020

- Actively contributed to mobile app development projects during an intensive summer internship, gaining hands-on experience in Flutter and Dart.
- Independently implemented key features and conducted rigorous troubleshooting, resulting in a 15% performance improvement.
- Collaborated with senior developers to enhance the app's user experience, leading to a 20% increase in user engagement.
- Assisted in the development of a crucial app module, reducing app crashes by 40% and enhancing overall stability.
- Actively participated in daily stand-up meetings, helping to foster an agile and dynamic development environment.

EDUCATION

New cairo academy

June 2017 - June 2021

Bachelor's, Computer Science

GPA: 3.2

- **Relevant Courses:** Object-Oriented Programming, Data Structures, and Algorithms.

Certifications: • The Complete 2021 Flutter & Dart Development Course, Udemy, November 2021 • Android Application Development, Udemy, March 2020 • Developing Android Apps with Kotlin, Udacity, June 2020

PROJECTS & OUTSIDE EXPERIENCE

Bund — Finance Banking App

Cairo, Egypt

Flutter application Developer

- Designed and developed a secure and user-friendly finance banking app using Flutter and Dart.
- Implemented features for account management, fund transfers, bill payments, and transaction history, etc.

Draya — Salesmen App for Draya Company

Cairo, Egypt

Flutter application Developer

- Created a productivity-enhancing mobile application using Flutter and Dart, designed to streamline sales processes for salesmen at Draya Company. Integrated REST APIs for seamless data retrieval and employed Firebase Notification to enable real-time communication and updates.

We for Trading and Distribution — e-commerce

Cairo Egypt

Flutter application Developer

- Engineered a dynamic social media application using Flutter and Dart, integrating REST APIs for seamless data retrieval. Utilized Firebase Notification to enable real-time user engagement.

Headhunt - Ushers and Event Managers App

Cairo, Egypt

Flutter application Developer

- Developed a user-friendly mobile application using Flutter and Dart, catering specifically to ushers and event managers. Integrated REST APIs for efficient data retrieval and incorporated Firebase Notification for real-time communication.

SKILLS & INTERESTS

Skills: Agile, Android Development, Flutter, Git, Kotlin, Lottie, REST APIs, Communications, Firebase, Socket.io, Software Testing, JIRA, Digital Ocean, iOS/Swift

Languages: Arabic

Interests: I have a genuine passion for mobile app innovation and staying at the forefront of technology trends. As a tech enthusiast, I'm committed to exploring new advancements and contributing to open source projects. I take a particular interest in creating user-friendly interfaces with a strong focus on UI/UX design. Solving complex problems and participating in coding challenges is not only a hobby but a source of motivation, and I am dedicated to continuous learning to further enhance my skills. Additionally, I enjoy gathering user feedback, actively testing apps, and mentoring others to share knowledge and foster growth in the field of mobile app development.
